Nevins Phone Booth

Nevins Phone Booth allows you to transform an otherwise unused space to a functional secluded work environment. The Phone Booths effective sound insulation creates a setting where users experience enhanced privacy and maximized concentration. It comes fully equipped with motion activated LED light and integrated ventilation, a power/USB module, and subsurface Qi charger. The user experience is also customized with the comfort of an adjustable height stool. Plus, its vast selection of finish options allows you to create a unit that correlates perfectly with your space.
